# Framery

*Simple yet significant. Framery O pod is a sound-isolated workspace ideal for private phone calls, video conferences and demanding tasks. It cuts down the noise in open-plan offices, and improves the everyday life of whole organizations by unchaining the potential of individuals. It improves productivity and reduces rush – and this way increases employee happiness. Thanks to the simple assembly, the pod can be easily placed and relocated around the office according to an existing floor plan providing people a quick escape from the noise.*

# Exte- rior

*At Framery we take our job seriously, happiness fanatically. We create premium acoustic solutions that are recognized for the uncompromising attention to detail and quality in them. Framery O is a perfect example of this. The wide range of exterior color and fine-detail options available allow you to customize the O pod according to your company's specific needs.*

## MATERIAL

**EXTERIOR**  
Painted sheet metal or brushed stainless steel.

**GLASS**  
Sound control laminated glass.

**FRAME**  
Formica laminate on birch plywood with varnish trim.

# Product details

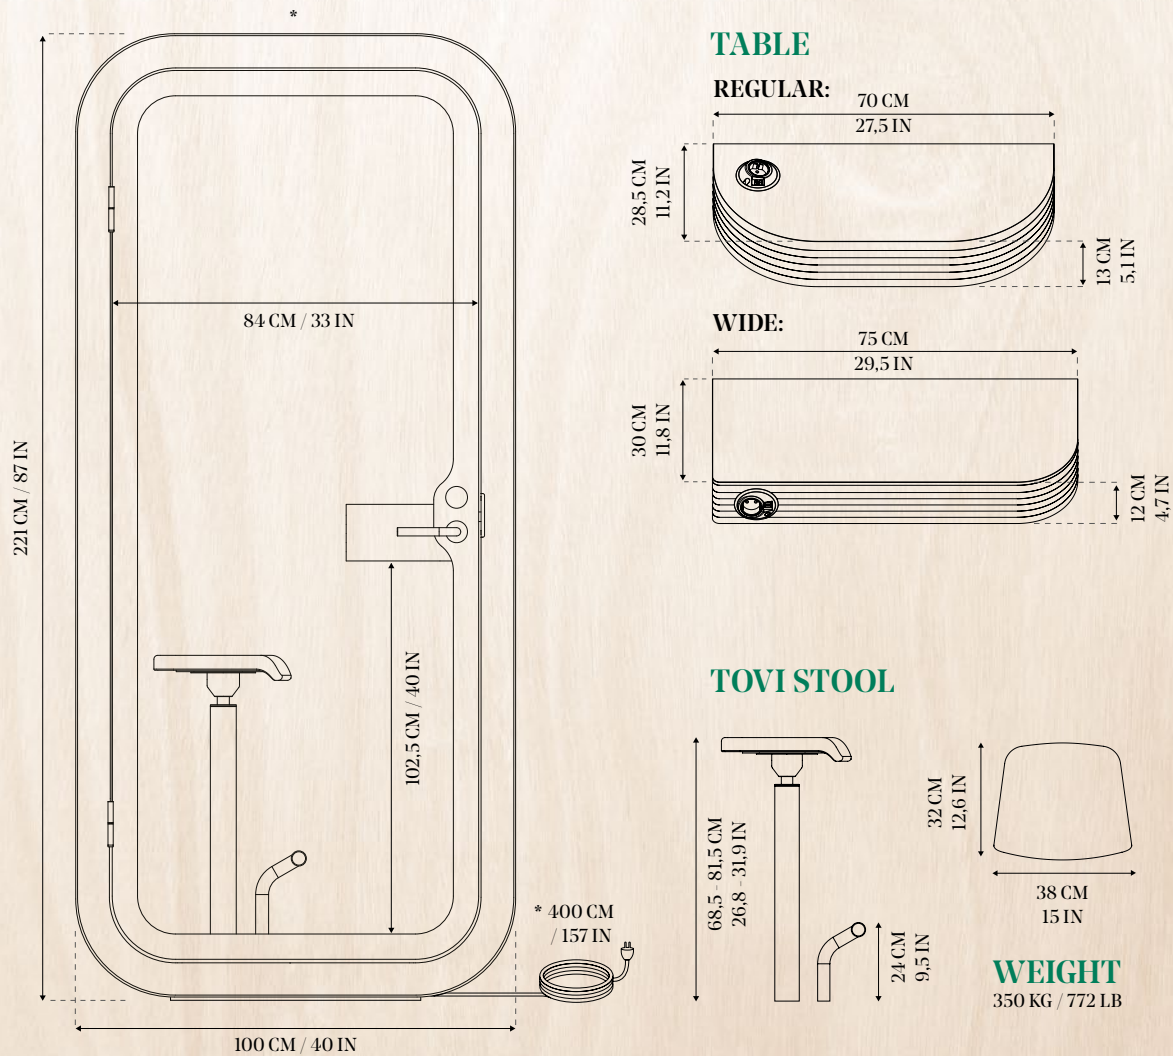

Framery O is a result of several years' worth of user research and countless hours of technical, hands-on product design. The user experience has been perfected to the maximum with clear simple lines and carefully chosen premium materials, both inside and outside. The ergonomic comfortability has been further ensured with the new Tovi stool that allows you to easily adjust your working position according to your measurements.

Framery's design and engineering teams have gone to extraordinary lengths to make sure that air flows smoothly, 21,5l/s, within the pod to increase the sense of breathability and enjoyment. Moreover, both, the LED lighting and electric air circulation system function automatically when stepped in, thanks to an integrated occupancy sensor. Power socket is integrated on the fine plywood table.

# Measurements

*Our goal is not just to erase noise from workplaces or remove open offices, we want to tackle everything that makes people unhappy – and change it. That's why there are no coincidences in Framery O, only carefully calculated solutions in every detail.*

\*Power cord can also be installed through the roof.

Recommended space above and around the pod for the air to circulate optimally is 20 cm / 7.9 in.

# Framery

# Q

*Great results happen in great conditions. Framery Q pod is a silent multi-space designed for up to four people. It is ideal for co-working tasks, like small meetings or interviews without disturbances. It was created to improve communication among team members, resulting in better results and increased happiness. Framery Q is easy to assemble and relocate when necessary. It comes with several model options for you to choose from.*

# Exterior

*One size never fits all. Framery Q can be customized to best represent the look and feel of your team to ensure full enjoyment. The large amount of different exterior colors and frame options make sure that it does not only suit your company's needs, but your professional style as well.*

# Product details

The carefully designed details are what makes Framery Q the best soundproof multi-space for working ever created. Building your perfect workspace has never been this simple. With the rich model options available you can create a space that works for you and not the other way around. Create, innovate, recharge or collaborate – the possibilities are endless. Framery Q is an evolution in the way we do work.

Framery Q has been enhanced to new levels. The smart air ventilation flows at 66 l/s, which is ten percent more than in any previous versions. Automatically functioning electric air circulation system and LED lighting are user experience at its best, all taken care of by an integrated motion sensor. Several fine features, such as two stylistic cloth hangers, guarantee a silent working space like no other.

# Measure- ments

*Spacious, yet beautiful. Framery Q is designed to fit in one to four people without sacrificing the compact size or usability of the pod. Every detail has been thoroughly measured, resulting in the best silent multi-usage workspace available.*

**WEIGHT**  
700 KG / 1543 LB

\* Power cord can be installed from either side of the pod.

Recommended space above and around the pod for the air to circulate optimally is 20 cm / 7.9 in.

## MORE ABOUT COLORS

*Standard Framery NapQ comes with three different pillow sizes and colors. The small featured pillow comes with Remix2 183 (black), the medium with Remix2 123 (light gray), and the large with Canvas 154 (Maggie gray) upholstery. Like all of our upholsteries, the pillow colors can be customized according to the available fabric options shown on the page. NapQ blanket comes in one standard color option only – as seen in the pictures.*

# General product information

*Framery Quality Management System meets ISO 9001 requirements. CE marking is a manufacturer's declaration that a product meets the requirements of relevant EC directives. The EC directives for Framery O and Q pods are: Low Voltage Directive (LVD) 2006/95/EC, Electromagnetic Compatibility Directive (EMC) 2004/108/EC, Restriction of Hazardous Substances (RoHS) Directive 2011/65/EU and Ecodesign Directive 2009/125/EC.*

## **FIRE SAFETY**

No fire hazardous materials are used in Framery products. The fire safety of all surface materials, upholstery and acoustics materials of the products is tested and classified by either national or international standards. Framery O and Q exterior sheet metal panels and sound-control laminated glass are of such quality that they may halt heat and fire. Outer frames with laminated surface are IMO certified (French Maritime Authority). Used acoustic foam meets B-s1, d0, EN 13501-1, acoustic felt EN 13501-1 and floor carpet Cf1-s1, EN 13501-1 requirements.

Molded foam used in Tovi stool seat meets CA TB 117:2013 requirements. Used fabric meets the performance requirements of BS EN 1021-1 and 1 021-2.

According to Inspecta, an EU accredited inspection body, there is no need for installing sprinklers in Framery O or Q.

## **SEISMIC SAFETY**

In Framery's case, seismic requirements generally refer to the products' ability to stay upright in case of an earthquake. If needed, the products can be fixed to the floor with anchor bolts using the leveling glide screw holes in the floor modules. Instructions are available upon request.

## **AIR QUALITY AND FLOW**

The indoor air quality of all products is tested by an accredited testing laboratory, VTT Technical Research Centre of Finland, and is found to be well within the limits of M1 emission classification. Total air flow in Framery O pod is 21,5 l/s. Total air flow in the 2018 updated Framery Q pod is 66 l/s.

## **ENVIRONMENTAL FRIENDLINESS**

Framery products are mainly made of birch plywood. All used plywood is produced either in Finland or neighboring countries, while all suppliers are required to have FSC or PEFC certification. A majority of the materials used are recycled or recyclable. The acoustic foam and the interior felt used in the products are up to 60–70 % recycled. A significant part of all steel, aluminium and glass is recycled in their manufacturing processes. Both Framery O and Q are highly energy-efficient. When the products are in use, the standard power consumption of Framery O is 4,82 W while Framery Q uses just under 12 W. So, ten Framery O's use less energy than one 60 W light bulb.

## **SERVICE**

Framery wear parts (including gas lifts, leveling glides, LED lighting, electric parts, hinges and locks) are warranted. Rigorous maintenance will expand the lifespan of a single pod unit substantially. Maintenance includes regular service calls for the unit (tightening screws, adjusting hinges, etc.) and replacement of wear parts.
